

- 1) TIP: Before posting. If you have multiple Instagram accounts. Open the Instagram app on your phone and check that Instagram is open to the account you use for real estate. Otherwise tap the account name to change to a different Instagram account.

12:01 ↗

IF you have multiple Instagram accounts click to change to your real estate account BEFORE you post from the ACESocial Video App.

2) Next, open the ACESocial Video App...

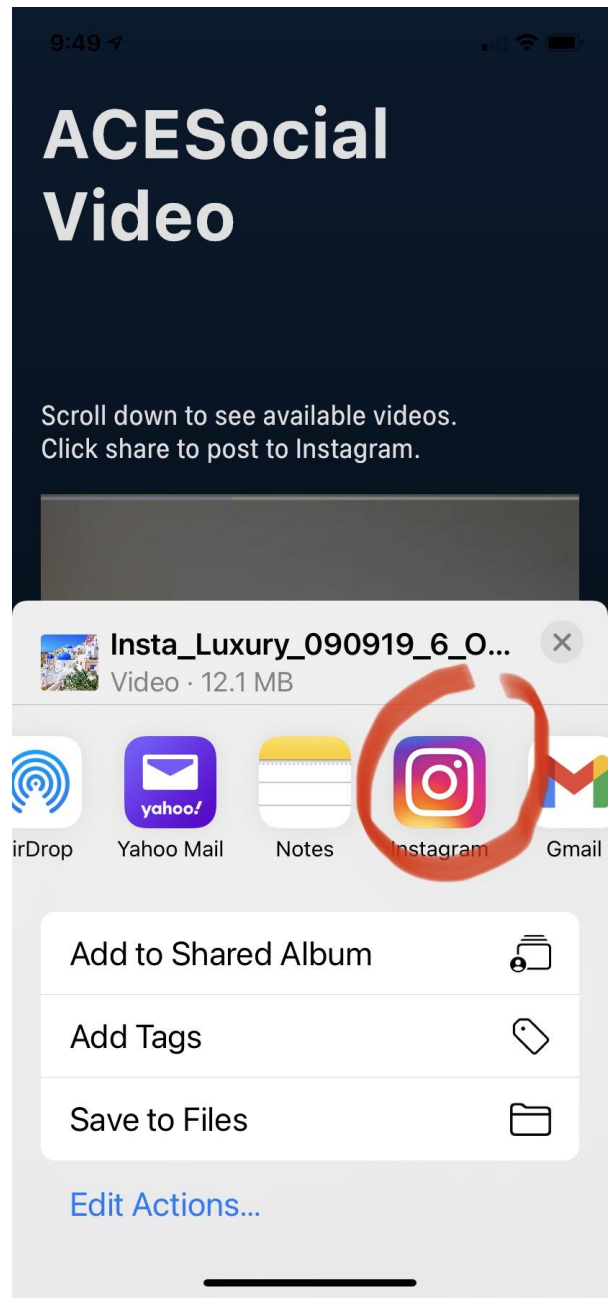

3) Select a video, and click "Share".

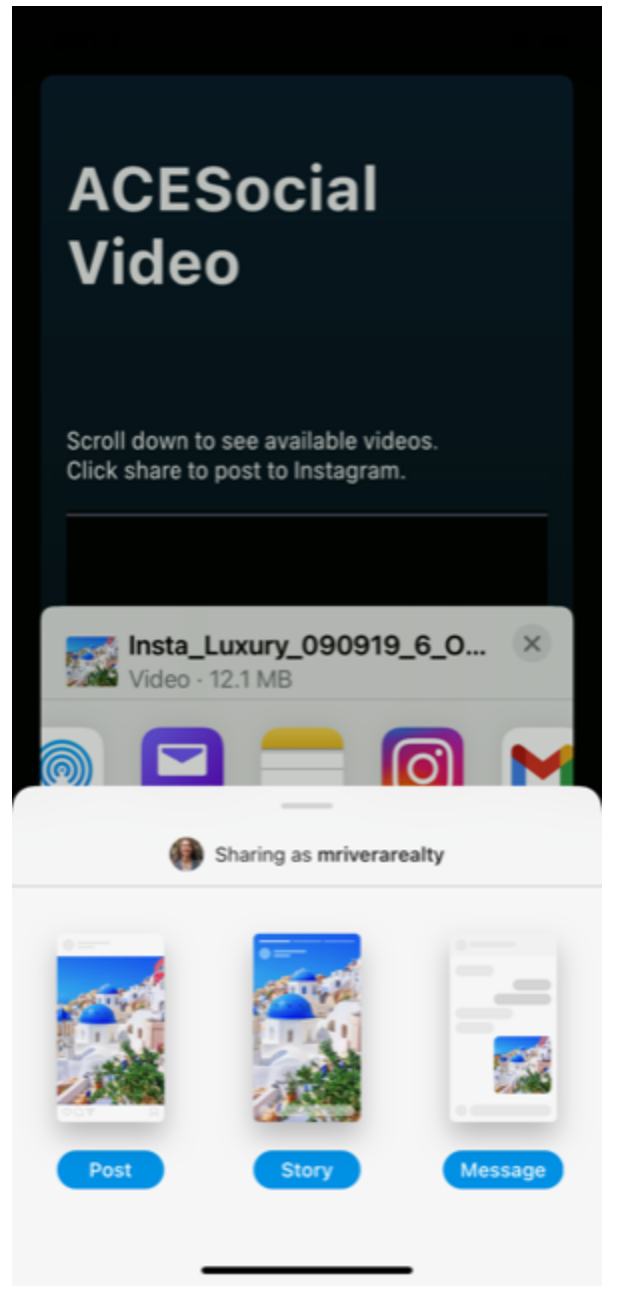

4) Video will download to your mobile device.

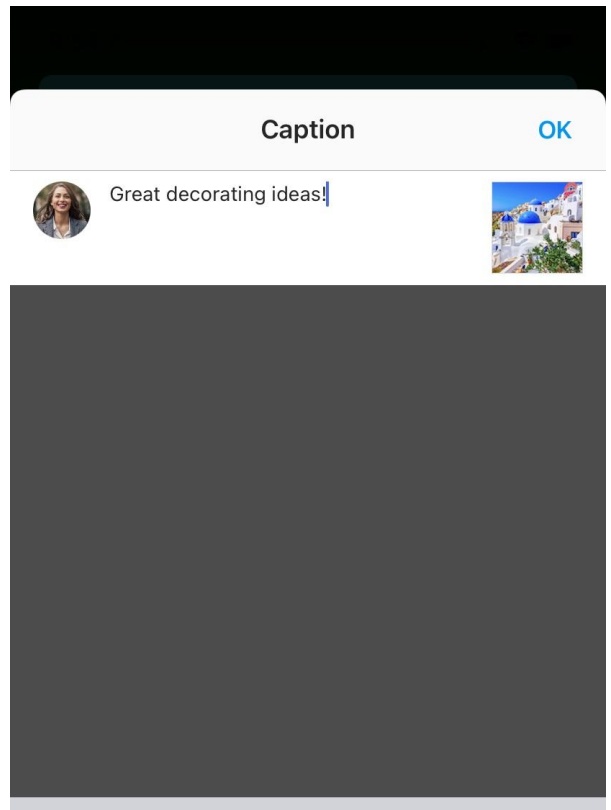

- 5) On the iPhone you will see a choice of compatible apps. Select "Instagram".

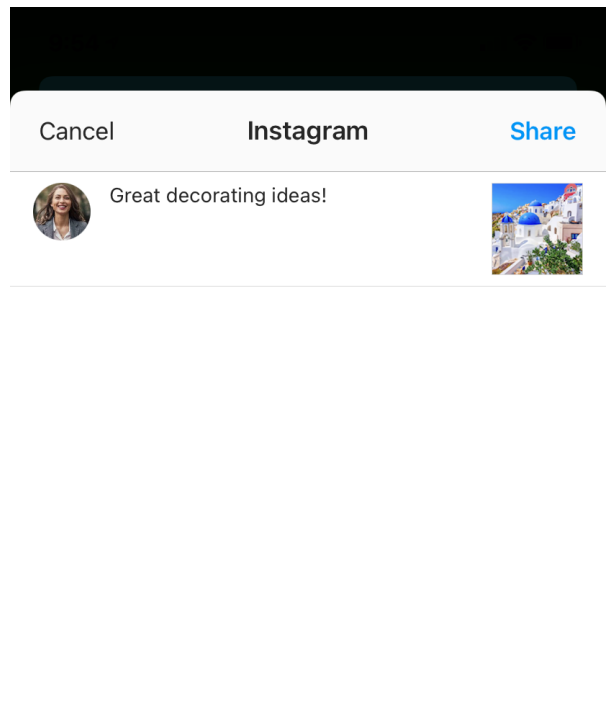

- 6) You will have options from Instagram such as to share this as a “Post”, “Story”, or “Message”. **Select “Post”**- sometimes Instagram will say these are too long to use as a Story, so please use “Post”

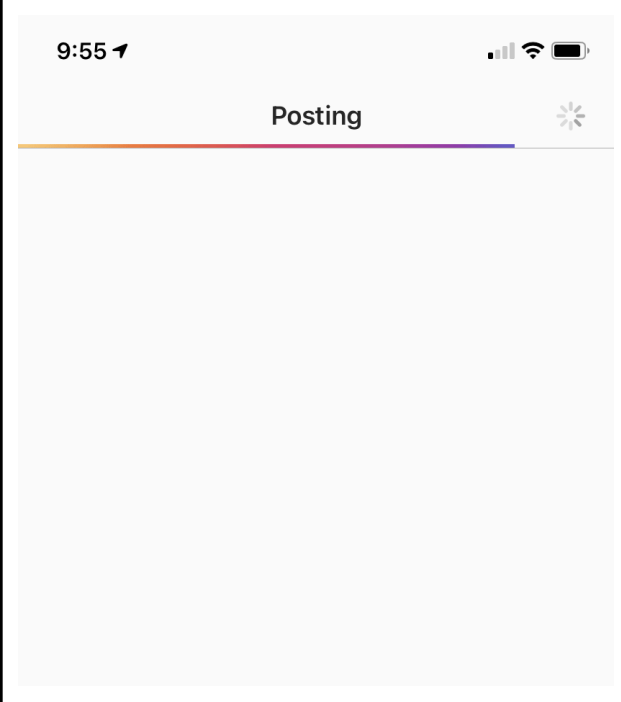

7) In this example we selected "Post" and we are given the option to add a caption. Type the caption and click "OK".

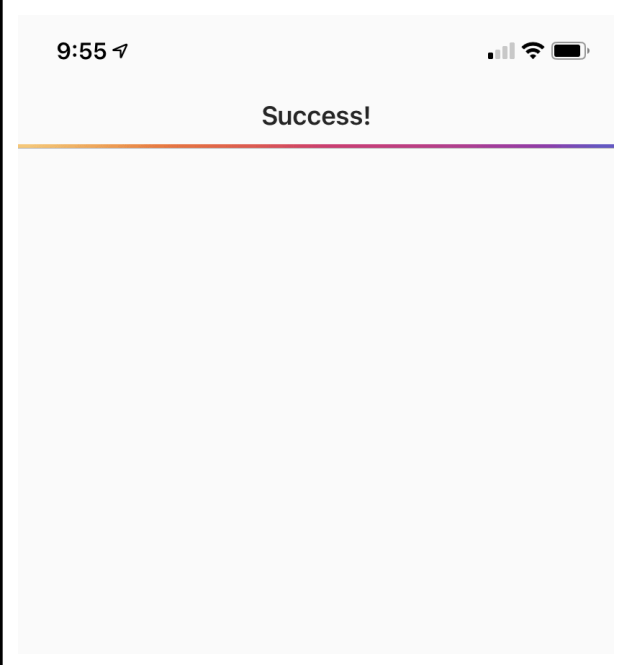

8) ...then click "Share".

9) Your Instagram app will show the progress bar of the posting process. "Posting....."

10) It may take a few seconds since this is a video file. Your Instagram app will display "Success" when a post has successfully completed.

11) Open your Instagram app to see the post.
