How to Connect ACESocial to Instagram and Convert to an Instagram Professional Account

Instagram, like Facebook, is owned by Meta. Similar to Facebook, which only allows systems like ACESocial to post to a Facebook business Page; Instagram only allows systems like ACESocial to post to a professional Instagram account. If your Instagram account is not a professional account you will be asked to convert to a professional account during this connection process. The good news is that it is very easy to convert a regular Instagram account to a professional account and ACESocial users can convert during the connection process. If your Instagram account is already a professional account then you will not see the conversion steps.

What is an Instagram professional account? Converting to a professional account is free and gives Instagram members access to business related controls including displaying their contact information, performance insights, permission controls such as assistants and administrators, and more. More information here.

Step by step guides:

How to Convert to a professional Instagram account and Connect ACESocial How to Post to Instagram from the ACESocial Instagram Content Library

How to Connect ACESocial to Instagram and Convert to an Instagram Professional Account		
ACESocial can only post to Instagram Professional accounts. If the ACESocial user does not have a professional account they will be prompted to convert their account during the connection process. If the user already has a professional Instagram account they will be able to connect without seeing the additional steps to convert. More about the benefits of a professional Instagram account here.
